Vasantrao Naik College, Aurangabad 2021 - 2024  
Bachelors in Computer Science

Vasantrao Naik College Aurangabad, Maharashtra 2019 - 2021  
Science HSC *Percentage: 85%*

Kids I.T World English School Aurangabad, Maharashtra  
SSC *Percentage: 87.20%*

## SKILLS

---

**Programming Languages:** C++, C

**Libraries / Frameworks:** React, Node Js

**Tools / Platform:** Git, Postman

**Databases:** SQL, MongoDB

## INTERNSHIP

---

### Arkaz Technology | Web development Intern Cab Booking Platform – MERN Stack

- Developed a **cab booking platform** using **MERN Stack (MongoDB, Express.js, React.js, Node.js)** tailored for **corporate clients**.
- Enabled **company registrations** and **third-party driver onboarding**, facilitating seamless employee cab bookings within registered organizations.
- Integrated **real-time maps and location tracking** using **Firebase Maps API** to enhance route visibility and cab assignment accuracy.
- Implemented **role-based dashboards** for companies, drivers, and employees to manage bookings, billing history, and usage records.
- Designed **automated billing and ride logs**, providing companies with downloadable ride and invoice summaries.
- Utilized **Tailwind CSS** for responsive and consistent UI design, ensuring a modern user experience across devices.
- Ensured secure **user authentication** and data access with JWT.

## PROJECTS

---

### E-commerce Application

**MERN stack ( MongoDB, Express, React, NodeJs )**

- Developed the frontend using React.js and Tailwind CSS for a modern and clean UI.
- Built the backend with Node.js and MongoDB for secure authentication and efficient data handling.
- Implemented features like full CRUD operations, payment gateway, admin dashboard, & shopping cart.
- Deployed on Render for both frontend and backend, with Cloudinary for image storage.

### Pizza Sales Data analysis

**SQL, Power BI, SQL Server Management Studio**

- Analyzed pizza sales data for total sales, orders, and top/bottom selling pizzas.
- Evaluated sales performance on weekdays vs. weekends, average order value, and trends.

### Movies Website

React.js , Bootstrap, TMDB API

- Real-time movie data via TMDB API
- Browse popular, top-rated, upcoming movies
- Responsive design, detailed movie info
