Full Stack Developer skilled in MERN stack and modern web technologies, passionate about building responsive and efficient web applications.

Education

- Vasantrao Naik College, Aurangabad — B.Sc. in Computer Science
  2021 - 2024
- Vasantrao Naik College, HSC (Science)
  2019 - 2021 | 85%
- Kids I.T World English School, SSC
  87.20%

Skills

- Languages: JavaScript (ES6+), C++, C
- Frontend: React.js, Tailwind CSS
- Backend: Node.js, Express.js
- Database: MongoDB, PostgreSQL, SQL
- Tools & Platforms: Git, Postman, Firebase, Render
- Core Concepts: RESTful APIs, Authentication (JWT), CRUD, Role-Based Access

Internship

Arkarz Technology | Web Development Intern — Cab Booking Platform (MERN Stack)

- Worked primarily on the backend development of a MERN stack cab booking platform.
- Built and integrated REST APIs for ride management, user authentication, and driver onboarding.
- Implemented role-based dashboards (Admin, Driver, User) and JWT-based security.
- Automated ride billing and trip logs with exportable summaries.
- Collaborated with the frontend team to ensure seamless API integration.
- Integrated real-time maps using Firebase API.

Projects

Projects E-commerce Application (MERN Stack)
- Frontend: React.js and Tailwind CSS for a modern, clean UI.
- Backend: Node.js and MongoDB for secure authentication and efficient data handling.
- Features: Full CRUD operations, payment gateway, admin dashboard, shopping cart.
- Deployment: Render for both frontend and backend.

Pizza Sales Data Analysis (SQL, Power BI, SQL Server Management Studio)
- Analyzed total sales, orders, and top/bottom-performing pizzas.
- Evaluated weekday vs. weekend performance, average order value, and sales trends.

News App (React, Fetch API, TailwindCSS)
- Fetched latest news from public API with search & categories.
